EAA Chapter 22 Hangar  
Rockford, IL

**Contact: Gerry Visel**

**815-621-9142**

**gcvisel@gmail.com**

**Select #: GL13142367**

**Representative GERARD  
CHRISTOPHER VISEL n/a**

### **Do You understand Your Aircrafts Electrical System?**

The scenario titled "Electrical Problems" describes an actual flight as follows:

Our pilot is making a short flight under Visual Flight Rules during a summer morning in a Piper PA-24 Comanche and encounters electrical issues.

After the short video Gerry Visel, EAA Chapter 22, will start the discussion and it is imperative that you participate and share your ideas along with your fellow pilots. You will soon realize the vast experience of your fellow pilots helping you get a better understanding of what if?

Please follow signs to Cottonwood Airport. We meet at the EAA Chapter 22 Hangar. Look for the big EAA sign on the hangar, at the end of the row at the first right turn after the gate. If gate is closed, call 815-621-9142 for code. If the ground is wet, please park on the drive or on a concrete surface

Earn your WINGS to get a chance to win a prize. Go to <https://www.wingsindustry.com/WINGS-Sweepstakes> for more info. Join us on Facebook: <https://www.facebook.com/groups/GASafety/>
