

Pro Tips for Pilots

If you would like to fly a new, different aircraft but wondering how to transition over, then this webinar is for You!

Joe Norris who is a Certified Flight Instructor, Designated Airworthiness Representative and FAASTeam Representative will give you the tools to transition to a new aircraft. He will cover the following:

1. Instructor
2. Pre-flight Preparation
3. Aerodynamics
4. Aircraft Systems
5. Weight and Balance
6. Hazards

The predominant factor in fatal airplane accidents is pilot performance, particularly when transitioning to an unfamiliar airplane which will be addressed in this webinar. Joe will talk about FAA Advisory Circular 90-109A that was developed to increase safety for General Aviation Pilots transitioning to unfamiliar aircraft. Joe's recommendations are also applicable to pilots transitioning into an unfamiliar Type Certificated Aircraft as well as Amateur Experimental Built Aircraft.
