

## Madison IMC Club

We will start by sharing a video that sets-up our scenario, "Gastonia Distress." Topic: It's been a simple IFR flight on a VMC morning. Now you're approaching a destination that's frustratingly hard to pick out given the suburban landscape and the just risen sun in your eyes. The distance is ticking down, ATC is getting impatient, and the nearby Class B limits your options to maneuver.

We will be discussing different course of action through input all of the attendees. Through our discussion you will learn that scenarios can be handled differently.

Follow signs to Dane County Regional Airport. Wisconsin Aviation is located at 3606 Corbin Ct. We will meet in the Main Conference Room.

### A message from the National FAASTeam Manager
