

Does a Helicopter Glide Better than an Airplane

What you always wondered about helicopters?

This 2 Hour Seminar is perfect for the airplane pilot that wants to know more about the capabilities of a helicopter. Have you ever gotten confused by a helicopter's traffic pattern in Class G Airspace? Do you fly a stabilized approach in your airplane.....Do helicopters fly stabilized approaches? Have you ever heard of a Point-in-Space Instrument Approach? Get answers to all of these questions and more at this seminar. The presenter is a U.S. Navy Veteran (Fixed and Rotary-Wing), and Assistant Chief Pilot for a local Helicopter EMS provider. Believe it, or not, we are better pilots when we know more about different category aircraft.

Coffee and donuts are provided! Fly-in or drive-in! All are welcome!

The Lake Country Aviation FBO is located in the large hangar on the main ramp at Lake Country Airport (W11)
