

## Managing Difficult Learners

Every instructor will face challenging students at some point which can cause safety risks. This session will provide you with practical tools for identifying and managing difficult behaviors, helping turn frustration and hazardous attitudes into productive learning moments. Learn techniques for identifying hazardous attitudes, maintaining patience, improving communication, and adapting your teaching methods to address risks while meeting individual needs. By the end of this interactive presentation, you will be better equipped to turn tough situations into educational safety opportunities for growth—for both you and your students.

### **FAA WINGS credit available!**

**To receive WINGS/AMT credit fill out attendance sheet onsite.**

Presentations will be in the AeroSummit Conference
