Do You understand what flying for fun is?

Fun fact, all UAS flights fall under CFR Part 107, unless we follow all of the exceptions listed in 49 USC 44809. We'll explain all of the 9 rules under 44809 and also cover some of the basic 107 rules that might be confusing. We'll also provide some clear definitions to help determine when flying is just for fun, or for a commercial purpose.

This webinar will be led by Levi Eastlick, Chief Pilot for the Wisconsin Bureau of Aeronautics. During the webinar you will be able to type in your questions that we will answer by our Team Members.

Please register for this webinar at the link below and share with friends or family that might also be interested in attending.
