

Rotax Maintenance That Dreaded 5 Year Rubber Ordeal

You want to learn more on the ROTAX 900 Series Engine then this webinar is for You!

The Rotax 900 series engine is becoming increasingly popular in light aircraft. These true 21st century designs are noted for their reliability, fuel efficiency, and excellent power-to-weight ratio. Rotax maintenance manuals mandate complete replacement of all rubber engine components every five years. This requirement is costly, time consuming, and absolutely essential. **Prof. H. Paul Shuch**, an experienced Light-Sport Repairman and Rotax mechanic will walk you through both the regulation and the Rotax specified process.
