

Beating the Odds

Are you one of the pilots that hasn't looked at the Pilot Operating Handbook since Your last Flight Review, if so you are not alone?

Jurg Grossenbacher from the Milwaukee FAA will not only cover the this subject but also talk about several aircraft accidents that happened due to the pilots not understanding their aircraft systems and not following the emergency checklist. We will discuss how you can improve both your knowledge and pilot skills through **FREE workshops**.

Items to be discussed:

1. POH what it is what it is not
2. Study Habits
3. Workshops that put Snowledge and Skill to the Test
