

Madison/Middleton EAA October VMC Club

Do You Know Your Visual Flight Rules whether you are flying in Class C, E, G, or D Airspace?

This discussion will be led by Sarah Pozdell, FAA Safety Representative. If you are unsure then come and join us and we will help you out through our open discussion. This is a round table discussion where we will review two topics provided by the EAA. Our first topic will be a question of the month which typically focuses on regulations or aeronautical knowledge.

Our second topic will be a video scenario that requires us to think about what we would do in that situation. Join other pilots to share your knowledge and learn from them. VMC Club is open to anyone at any level or interest in aviation.

We will be meeting in the FBO conference room. If driving in, enter through the main door off the parking lot. If flying in, enter through the main door off the ramp.
