

'Transitioning to High Performance and Complex Aircraft'

Flying airplanes with controllable pitch propellers, retractable landing gear, and larger engines provides improved performance for longer trips. The basics are pretty straightforward, but some non-intuitive implications are worth some thought!

Directions: Terminal building conference room

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
