

The underrated, under-appreciated, misunderstood, undercarriage

We will discuss all the details about landing gear that a pilot should know: tires, wheels, bearings, brakes, struts, retract mechanisms, and more. This is an open forum presentation with Dan MacDonald, CFI/MEI/AGI, flight school owner, and author of the popular book "Owner Assisted Aircraft Maintenance". Dan presents with an engaging style at aviation events around the region, including Oshkosh. Free coffee, treats, and hangar flying.

Directions: Terminal building conference room

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
