

## Engine Failure Analysis: Preventing an Accident

DPE, Master CFI, CFI of the Year, and FAA Safety Team Rep of the Year Woody Minar will give a presentation – Engine Failure Analysis: Preventing an Accident. The analysis is based on Woody's research over a six year period of engine failures resulting in accidents in general aviation aircraft. He will explain why the engines quit running in flight and educate you on how to prevent and reduce the risk of having an engine failure.

**Directions:** Exclusive Aviation Flight School is located on the Southeast corner of the Downtown St. Paul Airport (Holman Field). Travel to the end of Eaton Street, until you come to a gate. (On the right side of the gate you will see an Exclusive Aviation banner.) Continue through the gate, take your first left, our facility is on your left.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
