

## A Stall Tale - The Hallmark for Loss of Control

The circumstances that lead up to a stall or stall/spin are endless. However, the aerodynamics are consistent and familiar, and so are the remedies. This seminar is an open forum promoting discussion on stall awareness and recoveries. Supplemental videos are used to demonstrate stall aerodynamics and crew performance in certain situations.

This event is open to the public.

**Directions:** Enter the KMIC at Gate D. Approach from East or West on Bass Lake Road (CR10). Gate D access next to VFW. Proceed on access road to Club Cherokee hangar (72D). More info at [www.clubcherokee.com](http://www.clubcherokee.com)

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
