

EAA Chapter 702 Monthly Meeting, open to the public

Alan Hoffert, FAASTeam Program Manager, will help you establish your own pilot proficiency program. The WINGS Pilot Proficiency Program will be reviewed and we will teach the airman how to navigate this tool.

Dr. John Stock, M.D., Aviation Medical Examiner, will provide a discussion of pilot longevity issues. He will discuss items pilots can do to minimize the possibility of "losing" their pilot medical certification. He will also discuss recent changes the FAA has made in the certification process.

Directions: Enter using the North door of the Technical College to the Customized Training Center auditorium.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
