

Anoka County Flying Clubs: Icing for Piston Pilots

The turn of seasons from summer to winter exchanges one set of hazards for another. No longer are thunderstorms the worry; icing conditions take over. In this seminar we will discuss icing in depth - its causes and effects, forecast products, and the tools pilots need to avoid and when necessary escape from it. Please note: Facility limitations restrict attendance at this seminar to members of Anoka-based flying clubs only. Please contact Jack Shelton, FAAST representative, if you would like this seminar presented at another venue.

Directions: The meeting will be held in the classroom at Sim Flite Minnesota, in the first floor of the red and white hangar adjacent to RC Avionics at Anoka County Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
