

N/A presents:

G1000 Training Course

This presentation will be conducted by Alan Matson from 1PM-5PM in the Inflight Hangar. Mr. Matson holds a B.S. Degree in Professional Aeronautics from Embry-Riddle, and is factory-trained in both Cessna and Cirrus technically advanced aircraft. He has served as a Director of Safety for a regional airline and as the chief check pilot for Civil Air Patrol in MN. He presently works as the Manager of Advanced Qualification Program (AQP) Development for a locally-based airline.

Directions: Park in the Inflight/Modern Avionics parking lot & along the adjacent hangars...we're hard to miss, averaging over 100 cars each week. Inflight's office doors are on the west end of the Modern Avionics building right next to the "D" taxiway. If flying in, ask for a progressive to Inflight.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
