

Safely return to flying after a few months/years off

We often receive calls from pilots who have not flown for a period of time wondering what it takes to get back in the left seat. Whether it has been a few months, years, or decades, we will discuss the safe and economical way to get flying again. This is also a great opportunity to bring new prospective student pilots out to the airport to discover general aviation.

Directions: South St. Paul Fleming Field airport terminal building conference room

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
