

MN Seaplane Pilot's Association Annual Safety Seminar

While everyone understands the concept of "risk management" in daily life and in financial affairs, most of us seldom verbalize the specific elements involved in the risks we routinely take while flying. This presentation discusses methods of expressing and applying risk management to our flight operations.

Directions: From Brainerd: MN-210 west to MN-371 north to CR-77 west (6.3 miles) then right on Pine Beach Peninsula. Parking is available in the lot south of the Town Hall building

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
