

Multi-Engine Training & Testing (Private thru ATP), A DPE's Perspective

Mike Andersen, FAA Designated Pilot Examiner (DPE), takes us through an in-depth study of why we fly twins, what are the requirements, what are the common errors on a flight test, and what are the new (& grandfathered) ATP requirements. This is a great seminar by the only DPE in MN that can do your ATP Practical Test.....And one of the best to do your Private or Commercial Multi Check Ride!

Directions: This seminar will be located in the Modern Avionics Hanger.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
