

Ben's Top 10: 10 surefire ways to improve your flying

Come listen to a mediocre pilot with a whole pile of experience learning from his own mistakes and those of other pilots. This top-ten list is made up of simple, meaningful, and effective techniques to hone the flying skills you already have. We'll go from a 'back to the basics' approach straight into some advanced practices developed over a 12,000 hour career of corporate flying and instructing. You probably want to show up early for this one. A must see seminar!!!!

Directions: This seminar will be located in the Modern Avionics Hanger.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
