

MSP Approach Gives Us An Inside Look

Ever wonder how we can get better on the radio? What do those ATC guys look like? What do they do and how often do they do it? What about helping us with practice or real approaches. Ever flown a STAR? What are our responsibilities in Class B...or the MODE C VEIL? How do RCO's help the pilot communicate? What's a GCO? This seminar is sure to make your communication easier and better understood.

Directions: This seminar will be located in the Modern Avionics Hanger.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
