

MNDOT Dept Of Aeronautics provides an overview of the MN Aviation System

From the experts! How does airport funding work? How many public airports are there? Are some closing? What are the type of airports? What are the roles of federal, state and local governments in aviation. Why is aircraft registration important? Why do I need a commercial operators license to make money off my airplane or aircraft knowledge? How about some inside info on hot topics such as ADS-B, Unleaded Fuels, UAS, etc?!!! Better come see this one!

Directions: This seminar will be located in the Modern Avionics Hanger.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
