

## Why, When and What to Preheat

Lot's of information on: Why preheat the aircraft? What should be preheated? When should I preheat? Plus an awful lot of new info on temperature mapping...what's really going on? If you fly airplanes in the winter time in Minnesota, you need to hear this!

**Directions:** This seminar will be located in the Modern Avionics Hanger.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
