

Minnesota FAASTeam presents:

Minneapolis Air Route Traffic Control Center Tour / Operation Raincheck

This event will give pilots a behind the scenes look at the world of ATC. Your experience will begin with a seminar and will then proceed to tour the Traffic Management Unit, Tech Ops, Center Weather Service Unit, and Flight Data. You will be given the opportunity to sit with a controller working live traffic. Expect the event to last approximately 3 hours.

Directions: Do NOT register more than one guest without prior approval please. Space is very limited.

Do NOT un-register without prior approval please.

If you need special assistance, please advise at time of registration.

If you are not a US citizen, please contact me immediately for procedures as additional procedures are required.

Upon reaching the facility, please park to the left of the Guard Shack in the "Visitor Parking" area outside of the main fence. Walk into the Guard Shack to check in with a photo ID and proceed through security. When everyone has checked in, you will be escorted into the facility, and must remain under escort throughout the tour.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
