

## The Nuts and Bolts of Flying in Canada

Brad Johnson will share events from his recent trip to Canada. He will discuss Canadian airspace, ATC procedures and aeronautical decision making events from his trip. Preflight planning along with risk and fuel management will be covered. He'll also discuss weather considerations, and differences in Canadian and American weather services. Brad is an instrument-rated private pilot who flies Cessna aircraft and is a member of the Cloud Seven Flying Club.

**Directions:** This seminar will be located in the Modern Avionics Hanger located behind shop.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
