

IMC Club Meeting - Mastering the Art of Instrument Navigation

During this hour long event we will discuss the different ideas on handling an IMC situation where ice caused problems for a pilot and how each of us would have handled a similar type situation in our own aircraft. The idea is to gain knowledge by thinking about potential IFR problems and listening to fellow pilots ideas.

Directions: Park in the airline/terminal parking lot and bring your ticket to the meeting to be stamped for free parking. Take the stairs to the right just prior to the TSA check-in line, or the elevator in the lobby. The conference room is on the mezzanine near the airport admin offices.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
