

IMC Club Meeting - Autopilot Failure in the Soup

During this hour long event we will discuss different ideas on handling an IMC situation where an autopilot failure happened and what decisions had to be made. Considering: Peer Pressure, Mind Set, Get-There-Ites etc. We will discuss how each of us would have handled a similar type situation in our own aircraft. The idea is to gain knowledge by thinking about potential IFR problems and listening to fellow pilot's ideas.

Directions: Park in the airline/terminal parking lot and bring your ticket to the meeting to be stamped for free parking. Take the stairs to the right just prior to the TSA check-in line, or the elevator in the lobby. The conference room is on the mezzanine near the airport admin offices.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
