

## Winter Weather Flying

Seminar details: 2 hour presentation, including video and slides.

This seminar will cover topics that include cold, snow, ice wind personal preparation (survival equipment), and aircraft preparation. We will also discuss winter flying tips, preflight actions to consider, weather considerations, PIREPs, cold weather operations, IFR flying (go vs. no-go), how to identify snow conditions, and using braking action reports. Operations on skis and wheels will be covered too!

**Directions:** Follow signs on front entrance door.

### A message from the National FAAS**T**eam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAAS**T**eam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
