

# IMC Club Meeting - Handling Comm and Static Failures while IMC

During this hour long event we will discuss our aeronautical decision making abilities on how we might handle challenging IMC situations. One is where a pilot loses communications while in icing conditions. If time permits, we will also discuss how each of us would handle a frozen static system in our own airplane. The idea is to gain knowledge by thinking about potential IFR problems and listening to fellow pilots' ideas.

**Directions:** Park in the airline/terminal parking lot and bring your parking ticket to the meeting to be stamped for free parking. Take the stairs to the right just prior to the TSA check-in line, or the elevator in the lobby. The conference room is on the mezzanine near the airport admin offices.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Wed, Dec 14, 2016 - 19:00 CST**

**RST Terminal Building**

**Conference Room (# M-050)**

7600 Helgerson Dr SW

Room M-050

Rochester, MN 55902

**Contact: Dick Fechter**

**(507) 272-5099**
