

## Preventing Loss of Control Accidents

This exciting, action-packed seminar will cover various topics related to loss of control. We will discuss an accident in depth, providing an opportunity to learn from others' experience and perspective. There will be some quizzes thrown into the presentation only so that the presenter can throw candy bars at those who answer correctly. The presentation is meant to be engaging, fun, and educational (three words not often paired together).

**Directions:** Seminar will be conducted in the west waiting room of the Bemidji Regional Airport terminal building.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
