

MN FAAsteam presents:

Theres a Stranger on the Ramp

It's a beautiful day for flying. You just finished cleaning and washing the airplane and your friends are ready to join you for the "\$100" hamburger. As you pull the aircraft out of the hangar, you notice an unfamiliar face walking towards you. He's got some sort of ID on him, but you can't make it out quite yet. As he approaches, you can see the FAA logo. He's smiling...your stomach goes into a knot. It's an FAA ramp check.

FAA Aviation Safety Inspector Kevin Morris will be on hand to de-mystify this process. What is the FAA looking for? Why did they choose you? Can they really take away your license? Do you have to let them onboard the aircraft? How long is this going to take?

Directions: This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in, ramp is full and you need to park across the taxiway in the grass please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

Event Details

Sat, Oct 21, 2017 - 09:00 CDT
