

## Its Just Like Riding a Bike Isnt It?

This will be a discussion of things to consider before getting back into flying after a year, or maybe twenty.

This is not a Rusty Pilot Seminar. It is a frank discussion of what to expect out of yourself, your flight instructor, your flight school or club, your airplane, the airspace, and the FAA.

Considerations such as what to study, how long it will take, what's changed and cost will be discussed.

**Directions:** This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in, ramp is full and you need to park across the taxiway in the grass please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
