

IMC Club Meeting

During this hour-long event, we will discuss our aeronautical decision making opinions about how we might handle challenging IMC situations. The idea is to gain knowledge by thinking about potential IFR problems and listening to fellow pilot's ideas. We will also discuss other IFR ideas, regulations and techniques. Check for cancellations at <http://eaa100.org>.

Directions: Rochester International Airport located west of Highway 63, South of Rochester and North of I-90. Take the County Rd 16 SW exit off Highway 63 to the west. Take the "General Aviation" turn-in that is just west of the airline terminal turn-in. Great Planes Aviation is the first building as you drive toward Signature Flight Support. It is sometimes referred to as the "Old Weather Building". The door is on the SE side of the building.

Fly-ins can park at Signature Flight Support and walk to the Great Planes Aviation Building. Tell Signature you are there for the IMC Club meeting and there will not be a handling fee.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
