

Transition Training

The term “Transition Training” implies moving from one airplane to another with some differences but a lot of similarities. This is not necessarily so.

New experiences capture our aviation interest and give us something to excite us. Transition training can be fun, educational, enlighten or a complete disaster. It all depends on how it is approached.

Come visit us for a fun discussion on this topic.

Directions: This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in, ramp is full and you need to park across the taxiway in the grass please notify Flying Cloud Ground Control of your intentions.

You may want to consider bringing a chair in case there are none available when you arrive.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the “Contact Information” area of the meeting/event notice. Note that two weeks is usually required to arrange services.
