

## Incident? Accident? What is Next?

If you have ever wondered what happens when you've had an incident or accident, this seminar is for you! You will learn from two actual cases of what goes on after an incident and an accident. You will hear firsthand from an expert (me - had both in 2017) what to do.

Hopefully you will never have anything happen in your flying career but in case you do, this seminar will help guide you through the process, timelines, what's required for paperwork, and the FAA's new Remedial Training program to help you get back into the air.

**Directions:** This seminar is located in the Modern Avionics hangar located behind the shop. If flying in and the ramp is full you will need to park across the taxiway in the grass area if able. Please notify Flying Cloud Ground Control of your intentions.

You may want to consider bringing a chair in case there are none available when you arrive.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
