

Carbon Monoxide Poisoning A Pilots Story

Dan will discuss his experience with CO poisoning and the resulting accident. He'll share with us what he learned and what we can do to protect ourselves as pilots.

Dan is a CFI who owns and flies a Mooney 231 out of Winona. He has been around airplanes his whole life, and earned his PPL on his 17th birthday.

Directions: This seminar will be located in the Modern Avionics Hanger located behind the shop. If flying in, ramp is full and you need to park across the taxiway in the grass, please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
