

They Never Thought It Would Happen to Them or Me

They thought it would never happen to them or ME. DPE and Master CFI Woody Minar researched five accidents involving friends of his that happened locally and discusses the Swiss cheese causal factors that lead up to them. One of the accidents involved a plane in which HE was instructing in. The accident airplanes involve a twin engine, a single engine seaplane, a light sport, a high performance single engine land, and a tailwheel. Learn how to avoid being a statistic.

Directions: The Airport is about 12 miles from the RZN VOR on the 45 degree radial. CTAF is 122.9 and the runways are 04/22. Parking is on the approach end of 04 as is the restaurant. The restaurant is above the golf course club house.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
