

## Oops! In the Soup!

Last year Trudi gave a presentation on the "Top 11 Dangerous Things Pilots Do". The number one was "VMC into IMC." This year she will talk about what to do if that happens to you, how it can happen, and how to have a successful outcome.

**Directions:** This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in and the ramp is full, you will need to park across the taxiway in the grass. Please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive. We hold our seminars in pretty much any weather. For questions about possible cancellation for inclement weather, please call Laura at number below.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
