

ForeFlight Basics

Did you get an iPad for Christmas and plan on putting ForeFlight on it? Fred Nauer will be presenting a tutorial on the basics of using ForeFlight for flight planning. It will include adding aircraft to the data base to make the flight plan more accurate. If time permits, the discussion will continue about the various subjects and tabs on the Map Page. The event is scheduled from 1 PM to 3 PM CST.

Directions: Check in at Thunderbird Aviation reception.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
