

MN FAASTeam presents:

**Do This Or Risk Being Grounded After January 1!**

Today we will discuss frequently requested information, and we will encourage you to use the growing number of FAA, association, installer and manufacturer resources to help you make an informed and timely decision.

During this session, we will be discussing: The ADS-B rule and rule airspace The ADS-B ground system and ATC services Avionics capabilities and equipment Installation issues and information Web resources offered by the FAA that are tailored to meet the need of aircraft owners and installers

This session encourages equipage now if you haven't already done so. The rule date is not going to change.

**Directions:** This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in and the ramp is full, and you need to park across the taxiway in the grass please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive.

We hold our seminars in pretty much any weather. For questions about possible cancellation for inclement weather, please call Laura at number below.
