

Loss of Control

North Star Flyers Members Only

Loss of control in maneuvering flight remains a major cause of fatalities in general aviation flying. This seminar will discuss the problem, evaluate some case studies, and provide tools for you to avoid the traps.

Please note that this seminar is limited to North Star Flyers members only due to space constraints. If you would like this seminar presented at another venue, please contact Jack Shelton at the number given below.

Directions: The meeting will be held at the Lynx FBO building, in the glassed-in meeting room next to the reception desk.
