

MN FAASTeam presents:

St Cloud Regional Airport (KSTC) Runway Safety Action Team (RSAT) Meeting

The Minnesota FAASTeam would like to announce the St. Cloud Regional Airport annual Runway Safety Action Team (RSAT) meeting to be conducted by the St. Cloud Air Traffic Manager, Mr. Chad Nelson.

The RSAT meeting is, for all practical purposes, an FAA effort to improve runway safety by reaching out to the tenants and users of a particular airport in order to promulgate runway safety data and gather input from the airport community on potential safety issues they might have experienced or observed. During the RSAT, the Air Traffic Manager will be the primary presenter and the airport will have an opportunity to brief attendees on airport issues such as runway incursions and construction projects and their impacts to airport operations. There is a time for all airport users to address concerns and to answer any operational questions attendees might have.

The MSP FSDO, along with your MN FAASTeam, encourages all aviation minded people to attend this important presentation. It doesn't matter the certificate or rating you hold, if you know somebody with an interest in aviation, whether it's your mechanic, another pilot, your right seat buddy or just somebody with as much interest in aviation safety as you do, please bring
