

AK Adventures From Soup To Nuts

Art will discuss his Alaska flying adventures, covering topics from customs to weather to airplane camping around Denali. He'll touch on specific AK flying concerns such as running up on backcountry strips and flying mountain passes. Lots of pics, too, of AK from on the ground to in the air.

Directions: This seminar will be located in the Modern Avionics Hanger located behind shop. If flying in and the ramp is full, you need to park across the taxiway in the grass please notify Flying Cloud Ground Control of your intentions. You may want to consider bringing a chair in case there are none available when you arrive. We hold our seminars in pretty much any weather. For questions about possible cancellation for inclement weather, please call Laura at number below.
