

MN FAASTeam presents:

KMIC Tower Tour for Student and Private Pilots

Break away on your Saturday morning to learn what happens up in the Tower. Get your questions answered, learn some best practices to help you and the controllers, explore what it is that ATC sees and what equipment they use and all around just make you a better team member of GA.

A supervisor will give us a brief overview and we will have a Q&A session. We can also talk to the controllers as their workload permits.

Bring your questions or just join us for conversations and the view.

No phones or photos allowed in the Tower

If you need to cancel or will be late please let Ambyr know ASAP, there will be a waiting list for someone to take your spot

Prior to attending a safety seminar please review and abide by current CDC, state and local guidelines.

REQUEST FROM TOWER, IF YOU ARE SICK OR THINK YOU MIGHT BE SICK, PLEASE CANCEL - Thanks for understanding, we need to make sure the controllers stay healthy to keep us safe.
