

Crystal Tower Tour for Pilots

Come join us to meet our friends in the Tower at Crystal Airport. See what they see - watch and learn how they work landing aircraft and ones looking to taxi and depart. Get your questions answered, and more! This experience is targeted for pilots to learn how the controllers can help you and vice versa. We are doing this as a group event, so you can ask and learn from each other's questions. A supervisor will give us a brief overview and will answer questions. We can also talk to the controllers as their workload permits.

Bring your questions or just join us for a conversation and see the view!

****No phones or photos allowed in the Tower.**

Please meet in the parking lot at the base of the tower. Please arrive a few minutes early.

Once at the tower, we will split into 2 groups that will be escorted upstairs one at a time. Each group will spend 30min in the tower and we will plan on 15min to switch between groups.
