

## **KFCM Tower Tour For Instrument Rated and Instrument Students**

**Ever wonder who is up there telling you to "continue" on the ILS, come put a face with the name! Learn some better skills how to do practice approaches, work with Approach/Departure, request the published missed, see if there is a way to request an approach into the departing runway, what does "hold for release" mean, request "over the top" to an eastern destination, pattern work communication and so much more! A supervisor will give us a brief overview and we will have a Q&A session. We can also talk to the controllers as their workload permits.**

**Most of all we'll all remember / find out that controllers are just normal people and how we can all work together to keep flying fun and safe.**
