

Saturday Morning Coffee And Wings - Buying A Vintage Aircraft And Returning It To Service

Event Details

Join us for A VIRTUAL cup of coffee, a donut, and a LIVE WEBINAR as Jeremy discusses various administrative and mechanical issues (both expected and unexpected) that were encountered during the process of reviving a 1942 US Army Aeronca L-3B that sat in storage for 16 years.

We will go over problems associated with long-term aircraft storage that anyone shopping for an older plane should be aware of. You will see some detailed examples of what can happen to fuel

systems during extended storage, and some critical maintenance mistakes we discovered that passed many earlier annual inspections.

This webinar will also have a brief history of the L-3B, and a look into the process of updating the aircraft graphics.
