

## Saturday Morning Coffee and WINGS - What Is Wrong With My Landings?

Join us for A VIRTUAL cup of coffee, a donut, and a LIVE WEBINAR as Nick talks to us about why we are discussing our landings, and how to improve them so that we not only land safely, but can fly our airplane again! He will give us some statistics on landings followed by a discussion of what makes a stabilized landing. How are unstabilized approaches, environmental factors and human factors a threat to landing with a good outcome? That will be covered along with other tips and tricks to achieving that 10/10 landing and flying that beautiful plane again

If you haven't already registered for this webinar series, register using the link below:
