

Saturday Morning Coffee and Wings - Fly Like An EAGLE

Join us for A VIRTUAL cup of coffee, a donut, and a LIVE WEBINAR as representatives of EAGLE, an initiative consisting of the aviation and petroleum industries, and other interested parties, all working toward the transition to lead-free aviation fuels (UL AvGas) for piston-engine aircraft by the end of 2030 without compromising the safety or economic health of the general aviation industry.

The speakers will explain the “big picture” from developing and authorizing a UL AvGas replacement to its distribution, storage and sale at airports. They will also provide the most current status of the three replacement UL AvGas that are at various stages of development, testing, distribution and sale.

Aviation safety will be discussed, and is central to the content of this presentation.
