

KDLH Tower And Approach Tour for Private And Student Pilots

This event is intended for non-instrument pilots. If you'd like to focus / ask questions on instrument practices please join us at the 5:30pm event on the same day.

Break away from your evening plans and join us to meet our friends in the tower at Duluth Tower & Approach. See what is it they see, how can we help each other, get your questions answered, how to help collision avoidance, how to get a phone number (in a good way) and so much more! This experience is for student and private pilots, learn how the controllers can help you and vice versa. We are doing this as a group event so you can ask and learn from each other's questions. A supervisor will give us a brief overview and we will have a Q&A. We can also talk to the controllers as their workload permits. Bring your questions or just join us for a conversation and see the view.
